

**AMENDMENTS TO THE SPECIFICATION**

**Page 3, delete the first full paragraph which is [0005] and insert the following paragraph:**

[0005] Therefore, an object of the present invention is to provide a separator for a fuel cell and a fuel cell in which a warp resulting from press forming is reduced so that it becomes possible to stabilize the power generating performance, to simplify the assembling process and also to improve gas sealing properties.

**Page 6, delete the fifth full paragraph which is [0015] and insert the following paragraph:**

[0015] Figs. 5A to 5C are drawing that show surface pressure states of the separator in the examples of the present invention, and Fig. ~~5C~~5D is a drawing that shows a surface pressure state of a separator of a comparative example.
